

PWG SC Meeting Minutes

February 9, 2006

Attendees: Ira McDonald, Jerry Thrasher, Lee Farrell

Namespace doc - needed before we publish Counter MIB

The Jan 12 version of the Namespace document

(<ftp://ftp.pwg.org/pub/pwg/general/process/pwg-namespace-policy-20060112.txt>) had not yet received an official review, and it was holding up the publication of the Counter MIB.

None of the attendees had any objection to the latest draft.

ACTION: Jerry Thrasher will go ahead and [officially] publish both documents and announce the Counter MIB.

NOTE: If there are any critical comments of the Namespace document from any of the SC non-attendees, please forward you comments to Jerry Thrasher immediately.

MFP Alerts - team formation, how to proceed

This topic will be addressed by Ron Bergman at his teleconference scheduled for Tuesday, 11:00am EST.

Published Candidate Standards

Some are still identified as Draft docs in blurb at bottom of page... appears to be an editorial error.

ACTION: Jerry Thrasher will correct and notify PWG mailing list of which documents have been updated.

Next teleconference

Currently scheduled for Thursday, Feb 23 at 3:10pm EST.
