IPPv2 Conference Call Minutes
June 16, 2008

Meeting was called to order at approximately 4 pm (ET) June 16, 2008.

Attendees

Ron Bergman	Ricoh
Ted Tronson	Novell
Glen Petrie	Epson
Craig Whittle	Sharp
Lee Farrell	Canon
Ira McDonald	High North
Dave Whitehead	Lexmark

General Discussion

❖ Minutes from the previous teleconference were accepted (see ftp://ftp.pwg.org/pub/pwg/ipp/ippv2-minutes/IPPv2-ConCall-Minutes-20080602.doc).

❖ Reviewed updated table of IPP operations for v2.x (see ftp://ftp.pwg.org/pub/pwg/ipp/ippv2-docs/IPPv2-OPS-REQUIRED-2008-06-13.pdf)

  ➢ Ron reviewed the rules including a process for overriding decisions

  ➢ Final consensus listed as "R" (required) or "O" (optional)

  ➢ Novell's feedback was incorporated as part of the discussion

  ➢ See Ron's updated document (forthcoming)

  ➢ 2.x requires valid responses on the wire even if operation not supported

  ➢ All 2.0 operations "optional". Sweet suggested 2.0 include all required operation in 1.1 with media definitions incorporated.

  ➢ Operations marked with O* will need more discussion in the face-to-face meeting

  ➢ Reprocess job may not be such a great idea. More discussion is desirable.

  ➢ Specification is expected to be short.

> Challenge may be in interoperability testing using profiles for 2.0, 2.1, and 2.2.

   - Can we get the Steering Committee to waive the interoperability requirement if there are existing implementations (not new protocol required)?

Next Steps / Open Actions:

- ❖ Ron will try rough out an outline for the specification (single document) for review at the face to face.

- ❖ Face to face meeting schedule for next week.
