

IPPV2 Conference Call Minutes

September 22, 2008

Meeting was called to order at approximately 4 pm (ET) September 22, 2008.

Attendees

Ron Bergman	Ricoh
Lee Farrell	Canon
Glen Petrie	Epson
Craig Whittle	Sharp
Ira McDonald	High North
Bill Wagner	Konica Minolta
Dave Whitehead	Lexmark

General Discussion

- ❖ Minutes from the previous teleconference were accepted (see <ftp://ftp.pwg.org/pub/pwg/ipp/ippv2-minutes/IPPV2-ConCall-Minutes-20080908.pdf>).
- ❖ Action items review:
 1. (Closed: in latest document) Need text for section 7 (IANA and PWG Considerations). New registrations are needed for IPP 2.x. A short description (2 or 3 lines) is need for each item. Ron to put together this description.
 2. (Closed: in latest document) Security recommendations (Section 9). Ira suggested a couple for references. Ira will provide a short paragraph.
 3. (Closed: in latest document) Internationalization. Support for NFC via RFC 5198 (Unicode Format for Network Interchange) is recommended (“SHOULD”) but not required. Ira will provide an explanation for the IPPv2 specification.
 4. Add attributes as required by the original IPP specifications.
 5. Review complete list of all IPP attributes and determine which should become required for IPP 2.x.
- ❖ For action item #4 Ira suggested we add this to a normative appendix. Ron to reformat this to three tables.

- ❖ Section 6 reviewed. Change the “current” to IPP 1.x. The body of section should have details (client and server) outlining conformance referencing other sections in the document.
- ❖ Section 7 reviewed. Ira suggested a few changes calling out references for IANA.
- ❖ Section 8 reviewed. “Note well” is special warning to readers. Change first clause to “IPP/1.1 [2911] requires [lower case] that conforming printer implementation support for UTF-8 encoding of Unicode.”
- ❖ Section 9 reviewed: Ira pointed out that IPP 2.2 MUST support TLS/1.2. Strike the first paragraph.
- ❖ Mike suggested another “Note well” in security sections on the potential false positive in searches of usernames.
- ❖ Additional references were also added. PWG references should be above RFC references.

Next Steps / Open Actions:

- ❖ See updates above.
- ❖ Next teleconference scheduled in two weeks (Oct6).
