

# IPPV2 Conference Call Minutes

## February 9, 2009

Meeting was called to order at approximately 4 pm (ET) February 9, 2009.

### Attendees

Bill Wagner	TIC
Craig Whittle	Sharp
Ira McDonald	High North
Lee Farrell	Canon
Michael Sweet	Apple
Glen Petrie	Epson

### General Discussion

- ❖ A reminder of the PWG IP policy was given and no objections were raised.
- ❖ Minutes from the face-to-face meeting were accepted (see <ftp://ftp.pwg.org/pub/pwg/ipp/ippv2-minutes/IPPV2-ConCall-Minutes-20090126.pdf>).
- ❖ Action item review:
  1. Ira McDonald (closed—complete) - Update IPP PSX spec - add Printer MIB and CIM Printer classes coherence/interworking rationale and current PWG boilerplate.
  2. Paul Tykodi and Pete Zehler (still open) - Forward IPP/2.2 list of operations and attributes to Production Printing domain experts for detailed feedback and to determine if implementations already exist - Target February 2009
  3. Paul (still open) – Paul will read the issues on the front of the Set 2 document and will consider possible resolutions.
  4. Pete Zehler and Ira McDonald (due mid year) - Complete working draft of IPP Production Printing - Should be in IPP v2.2 Set2 spec - Target April 2009 PWG Last Call
  5. Paul Tykodi and Pete Zehler (no update) - Forward IPP/2.2 list of operations and attributes to Production Printing domain experts for detailed feedback and to determine if implementations already exist - Target February 2009

6. Paul (still open) will read the issues on the front of the Set 2 document and will consider possible resolutions.
  7. Ira (open – new). Ira to rewrite section 7 as numbered requirements (bullets or table) to simplify reading.
  8. Ira McDonald and Mike Sweet (closed) - Update IPP/2.0 spec to remove IPP/2.2 and content (for now), add IPP PSX, add references to JDF/1.5 and JDF/IDP Conformance. Profile, add JDF coherence/interworking rationale - Target February 2009 PWG Last Call
- ❖ Status of IPP 2.0 specification (see <ftp://ftp.pwg.org/pub/pwg/ipp/ippv2-wd/wd-ipp20-20090124.pdf> / doc <ftp://ftp.pwg.org/pub/pwg/ipp/ippv2-wd/wd-ipp20-20090124-rev.pdf>) Document review:
    - Need participants to review latest specification
    - Section 7. Can this be made into a table (see new action for Ira)
    - Glen to send minor edits / typos to the list
    - Ira to make promote specifications to “last call” through March (to satisfy 22-day rule). This process may involve some lobbying behind the scenes
  - ❖ Status of IPP PSX spec (Prototype) - Ira/Craig <ftp://ftp.pwg.org/pub/pwg/ipp/wd/wd-ippstate10-20090208.pdf> / doc <ftp://ftp.pwg.org/pub/pwg/ipp/wd/wd-ippstate10-20090208-rev.pdf> / doc
    - Mike has done a cursory review of the document
    - Printer state severity suffixes make it difficult to register with IANA
    - IPP PSX specification will not change prior to the face-to-face. Any issues or other edits should be brought to Ira’s attention.
  - ❖ Ira to post a “last call” on these specifications.
  - ❖ Agenda for IPP Session at PWG F2F in Hawaii
    - Review specifications and move specifications to “last call”.
    - Product printer definition may need to move to future versions of the specification.
    - Bill will be “proxy chair” for the meetings in the face-to-face meetings next week.
    - Do we define a standard PDL? This requirement may differ for target device (mobile vs. printer)

## **Next Steps / Open Actions:**

- ❖ Face-to-face meetings are next week. Next teleconference will be the first Monday in March.
- ❖ Action items summarized above.
