 - Production printing definition needs forward movement
 - Paul Tykodi and Pete Zehler (still open) - Forward IPP/2.2 list of operations and attributes to Production Printing domain experts for detailed feedback and to determine if implementations already exist
 - Paul (still open) – Paul will read the issues on the front of the Set 2 document and will consider possible resolutions.
 - Pete Zehler and Ira McDonald (due mid year) - Complete working draft of IPP Production Printing - Should be in IPP v2.2 Set2 spec - Target April 2009 PWG Last Call

- ❖ Bill updated attendees with activities of the Managed Print Services Association (MPSA)
 - The first MPSA meeting is scheduled during the same time with the next PWG face to face (see <https://www.regonline.com/builder/site/Default.aspx?eventid=652471>).
 - The group is looking at managing services and multifunction devices.
 - Ideally the MPSA would provide marketing/functional requirements and the PWG would provide the technical standards. This will be discussed in the next PWG steering committee.

Next Steps / Open Actions:

- ❖ Next teleconference will be two weeks.
