Internet Printing Project
Conference Call - January 29, 1997

The meeting was called to order at 4:05 PM EST.

<u>Attendees:</u>

Mabry Dozier - QMS
Jeff Copeland - QMS
Lee Ferrell - Canon
Bob Herriott - Sun
Carl-Uno Manros - Xerox
Tom Hastings - Xerox
Roger Debry - IBM
Peter Zehler - Zerox
Randy Turner - Sharp
Jim Walker - Dazel
Don Wright - Lexmark

<u>Agenda:</u>
- Feedback from WEBDAV meeting
    - No negative feedback on Charter as per Keith Moore
    - Netscape has expressed interest in joining us for the 2/6 meeting
    - MIME - discussion with one of the MIME experts at meeting
        - WEBDAV probably will not use MIME except HTTP MIME
        - We could do the same
    - The W3C enhancements to CSS for printing were discussed at the WEBDAV meeting. They have no interest in using these.

- Requirement and Scenarios
    - IPP should not contain things that are not in a scenario
    - We will indicate in the requirements/scenarios things that won't be addressed in IPP
    - Reviewed the closed items in the IPP REQ Issues list
        - #17 - re-open, requirements document needs to identify notification means
        - #19 - flag in requirements document that HOLD/RELEASE is not in V1
    - Reviewed open issues
        - #11 - added to scenarios
        - #14 - closed - not in V1
        - #15 - closed - outside scope of IPP
        - #21 - add examples
        - #22 - need requirements statement and then passed to the Directory & Model groups
        - #28 - close, that was the intent of scenario 2.1
        - #31 - close - scenario modified
        - #33, 34, 35 - close - added to scenarios
        - #42 - close - clarified
        - #43 - close - scenario added
        - #44 - close - scenario added
        - #45 - close - e-mail removed, generic asynchronous response
        - #46, 47 - close - done
    - New Issues and Scenarios documents will be posted 1/30/97

- Model and Semantics
    - Bob Herriott and Tom Hastings will have a report at the 2/6 meeting
    - Bob reviewed several of the issues being addressed
    - A Model/Semantics issues list will be created to track issues
- Directory
    - List of issues from Keith Carter
    - Some of the scenarios make the need to move on this more pressing
    - Need a WHIP for now, Isaacson won't be available until Models is done.
- Protocol
    - Roger will be updating Protocol White Paper by 1/30/97
- IPP Meeting Agenda
    - Microsoft Presentation
    - Wind up Scenario discussion
    - Model/Semantics
    - Protocol
    - Other sub-groups
- Modeling Sub-group meeting on Wednesday PM at Sun

An e-mail was distributed today announcing that the IETF has chartered the Internet FAX working group.

The meeting adjourned at 6:10 PM
