32 **5. Is Copy Service ready for MFD Group Last Call?**

- 33 • Pete reported that Xerox has been prototyping the Copy Service. A good portion of the  
34 spec has been implemented. According to the PWG process, the MFD Working Group  
35 Last Call for Copy Service specification may starts immediately and last for 2 weeks,  
36 right after Pete's email notes on the prototyping effort.  
37 • Normally the PWG wide Last Call for the spec can then start to span the PWG April  
38 face-to-face meeting.  
39 • The Copy Service has normative dependency on the MFD Overall Semantic  
40 specification. Yet for the MFD Overall Semantic spec to begin PWG Last Call, at least  
41 two dependent service spec need to have been through PWG Last Call. FaxOut Service  
42 specification can be another service spec for this purpose.  
43 • **AI:**  
44 ○ Pete to prepare the Copy Service ready for Working Group Last call. Note: need  
45 to state that the spec is normatively depends on the MFD Overall spec, fix the

46 reference to the MFD Over spec, and add a note to PWG Secretary for final  
47 editing of the publishing date of the spec.  
48 ○ Pete to send out a email describing the prototyping effort in Xerox, and after two  
49 weeks, initiate PWG Last Call to span the April face-to-face meeting.  
50

51 **6. Discuss FaxOut Service - Interim Draft**

- 52 • Pete will incorporate Ira's comments on the FaxOut Service draft spec. No other  
53 comments were received.
- 54 • Pete will update the spec to "Prototype" draft and announce a call for prototyping.  
55

56 **7. Status of MFD Overall Semantic Specification**

- 57 • Bill reported the draft has been updated to reflect the Schema changes with close to  
58 complete re-write of common operations. The updated draft should be out by the  
59 weekend assuming no more Schema changes.  
60

61 **8. Next Teleconference in two weeks on March 25, 2010, 3pm EDT.**
