

PWG WIMS *CIM Alignment* Conference Call Minutes June 28, 2007

Attendees

Lee Farrell	Canon
Rick Landau	Dell
Ira McDonald	High North
Pete Zehler	Xerox
Bill Wagner	TIC

General Discussion

- Meeting was convened at approximately 12 noon on 28 June by Bill Wagner
- Minutes from the June 7 teleconference (see ftp://ftp.pwg.org/pub/pwg/wims/minutes/cim_070607.pdf) were approved without comment
- Rick continues to post the progress of CRs on <http://pwg-wiki.wikispaces.com/DMTF+CIM+Core+Schema+Change+Requests>

CIM Printer Components and Hierarchy Diagram

- Rick discussed the changes reflected in ftp://ftp.pwg.org/pub/pwg/wims/cim/Visio-Printer_10.pdf. Some significant changes:
 - Subunits now derived from "Printer Components"
 - More associations indicated
 - Print Finisher Added
 - Console Text Elements dropped
 - Printer now made system device of a Computer System, allowing inheritance of the general Computer System classes to cover MIB-II and HR MIB elements such as network interface, storage etc. (sheet 6 of the diagram)
- The cardinality on sheet 1 of the diagram was reviewed; Rick will update this diagram

Next Steps / Open Actions:

- Rick will update the figures to reflect discussed cardinality (done – see ftp://ftp.pwg.org/pub/pwg/wims/cim/Visio-Printer_11.pdf)
- Bill will post introductory remarks slides for face-to-face meeting. Ira and Rick should consider what additional material they need for discussions of Imaging State and Counter MIB and for the CIM effort discussions.
- Rick and Ira will continue to produce and modify MOFs for submission to CIM core.
- Ira will check with Walt on progress with Imaging State and Counter MIB prototype.
- Next WIMS CIM meeting will be the face-to-face on Monday 9 July starting at 11 PDT (2PM EDT).
