

# **PWG *Web-based Imaging Management Services***

## **Phone Conference**

### **Minutes - February 03, 2005**

Harry Lewis  
02/08/2005

#### **Attendees**

- Lee Farrell, Canon
- Harry Lewis, IBM
- Ira McDonald, High North (by phone)
- Jerry Thrasher, Lexmark
- Bill Wagner, NetSilicon

#### **General Discussion**

Accepted CAMAS f2f minutes.

#### **WIMS Spec**

Most of the meeting was spent reviewing the WIMS specification. Most of the modifications were noted and edited on the fly by Bill during the meeting. Not all changes are recorded here but will appear with change notification in the resulting draft.

- Change status to Prototype
- Allow additional transport bindings such as e-mail and BEEP.
- SOAP 1.1/WSDL 1.1 (defacto) vs SOAP 1.2/WSDL 2.0 (official)
  - Still debating this although resolution to mandate official had been previously established
- Need conformance section
  - Mainly a check-list as required support is fully described along with each Operation.
  - WIMS proxy MUST support WIMS agent, MAY support WIMS manager interface (ex. if proxy to devices with embedded WIMS)

#### **Counter Spec**

Bill to work on section 7. Harry to work on the rest of the document.

## **Next Conference Call**
